

City of Kirkland Community Engagement Survey

**Verbatim Responses** 

From May 14-June 2 2024, DHM Research conducted an of City of Kirkland community residents. The purpose of the online survey was to assess and track community members' attitudes and opinions about quality of life, service priorities and satisfaction levels in the City of Kirkland.

This document includes verbatim responses to the 5 open-ended question in the survey, including [Q10; What do you like best about living in Kirkland?] and [Q11; When you think about the way things are going in Kirkland, what, if anything, concerns you?].

Although we attempt to provide the original comments in full, in order to avoid unduly editing of participants' own words, in a few select cases we removed comments that explicitly called for violence or were a personal insult to a specific elected official. These cases are denoted by a bracketed statement referencing the nature of the removed comment.

Q10. What do you like best about living in Kirkland?  1) safety within the community, 2) cleanliness  Access Access Access Access outdoors Access to lake Access to lake Access to lake and parks/woodlands, diverse population, close to mountains and city Access to lake Washington, parks, downtown Kirkland, good schools and friendly Access to the lake and parks Access to the lake.
